

Tracking outcomes with DataBiologics

Why Your Participation Matters

Your Journey with DataBiologics: Empowering Better Outcomes

We’re DataBiologics, a platform designed to help your care team evaluate the success of your treatment. As a participant, you'll receive brief assessments pre and post treatment. Each assessment takes just a few minutes to complete and provides valuable information to both your healthcare team and the broader medical community.

Your care team uses DataBiologics to:

- 

Evaluate the best treatment options for your condition
- 

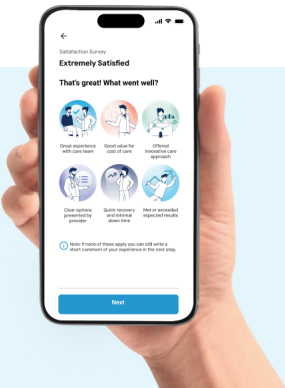

Demonstrate their commitment to evidence-based medicine
- 

Track your progress post-treatment
- 

Contribute to a global registry to support research on innovative treatments

Why participate?

The data insights help your healthcare team monitor your progress and adjust treatments for the best outcomes. This personalized approach ensures you receive effective, tailored care. By completing these assessments, you contribute to evidence that aids better decisions for you and future patients.

What to Expect

You will receive your first assessment shortly. Please take a moment to fill it out when you receive it. Look for:

-  outcomes@databiologics.com
-  (833) 741-1543

You'll receive assessments at the following time periods:

- Pre-treatment
(Baseline)
- 2 Week
(Unexpected Symptoms)
- 1 Month
- 3 Months
- 6 Months
- 12 Months

Please ask your provider or the staff if you have any questions. Thank you in advance for your contributions.

Note: The baseline survey expires the night of treatment date, and follow-up surveys remain open for two weeks. Missed surveys cannot be completed later, but subsequent follow-ups will continue as scheduled.
