

Prove Your Results. Grow Your Practice.

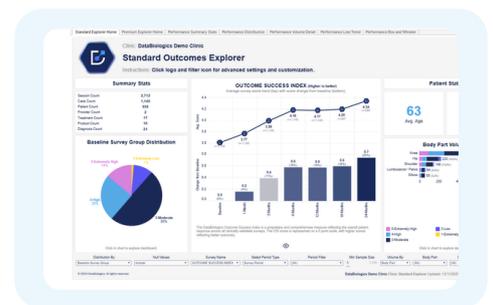

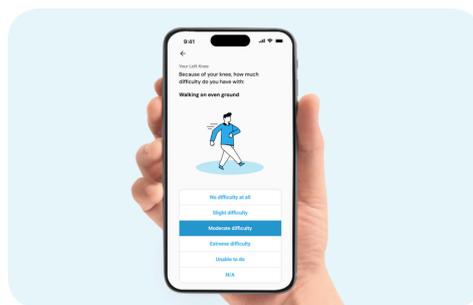

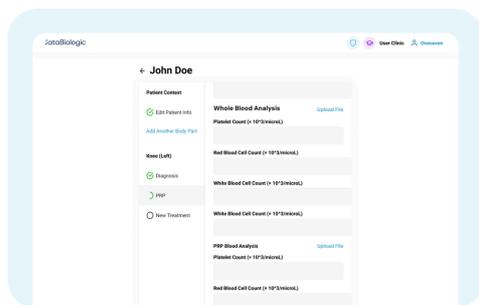

Effortless Tracking. Real-World Results. More Confident Patients.

A Game Changing Opportunity Tracking Patient Success

TendoNova is sponsoring your access to **DataBiologics**, a **seamless, automated** software platform to track patient outcomes with **zero upfront cost to you**. Simple patient enrollment, no complicated setup—just **real-world data that validates your treatments, strengthens your reputation, and attracts more patients.**

Why Start Tracking Outcomes?

- **Stronger Patient Relationships:** Build loyalty with real, trackable improvements.
- **Differentiate Your Practice:** **Objective, data-backed results** set you apart from competitors.
- **Optimize Treatments:** Make informed decisions with **real-time insights**.
- **Grow Through Transparency:** Use your outcomes to build credibility and attract new referrals.

Simple Enrollment. Streamlined Tracking.

Easily enroll patients into automated outcome tracking with minimal effort and no added burden to your clinical team. Access individual patient-level data to monitor treatment progress and response.

*For broader performance insights, upgrade options are available to unlock advanced analytics dashboards.
